2024 – 2028 (Expected)

TRAINING

Full-Stack Web Development, Cohort 6
WHOBA OGO Foundation
2024

PROFESSIONAL SUMMARY

Computer Science student and full-stack web developer who builds responsive, user-friendly web applications. Strong in frontend development with HTML, CSS, JavaScript, React and Next.js, with working knowledge of Node.js, REST APIs, MongoDB and MySQL. Has built and deployed several projects, and is seeking an internship or junior developer role to grow through real-world, collaborative development.

PROJECTS

CrestPoint Advisory *Financial Services Website*

React • Vite • React Router

- Built a responsive financial-services website with six public pages.
- Implemented sign-up and sign-in flows and a protected-style client dashboard.
- Added interactive financial calculators and a consultation request feature.

D-Tech Academy *Education Website*

HTML • CSS • JavaScript • React

- Developed a responsive multi-page site (Home, About, Courses, Blog, Contact) for a fictional technology academy.
- Built first with HTML/CSS/JavaScript, then converted to a component-based React app.

Language Translator *Web Application*

HTML • CSS • JavaScript (no framework)

- Built a translation app with language selection, source-language detection and input/output swapping.
- Added text-file upload, downloadable results, a light/dark mode toggle and a character counter.

LuxeStep *Premium Footwear E-commerce Concept*

Responsive frontend

- Created a dark-themed e-commerce website concept for a premium footwear brand.
- Designed a product catalogue and a product-focused shopping interface.
